# BARRY P. WILSON!!

On September 8, 2014 the Board of Bar Overseers will be hearing charges against peoples lawyer Barry P. Wilson alleging that he “acted in a disruptive manner” in three separate court proceedings. The Board could suspend his license.

**We must not allow this to happen!**

For over 40 years Barry has set the standard for passionate, determined, “no holds barred” advocacy in defense of his clients. Barry’s formidable skill set, scholarly command of the law, boundless creativity and singular courtroom presence has earned him the love and admiration of his clients and colleague.

It has also earned him the hatred of the forces of oppression, racism, sexism, discrimination and injustice both in and out of government and the courtroom.

When you challenge the “criminal injustice system”, when you fight to assure your clients a genuine “jury of their peers” free from racism, prejudice and pro-law enforcement bias, and aggressively fight for every defense motion to be granted, you become a target of the “powers that be” and open yourself up to retaliation.

Throughout his legal career he has refused to surrender his principles even when faced with dire consequences. Barry has spent two terms in prison, one for “contempt” for challenging a racist and pro law enforcement jury selection and the other for refusing to be bullied into abandoning the principle of “attorney/client privilege.”
